

CALL FOR ENTRIES

Film Bazaar 2011 introduces **Market Recommendations**, a digital video library that will showcase films in need of gap finance, distribution partners and world sales to be presented to a select audience of film funds, festival programmers, distributors & world sales agents.

Send in your feature or documentary film for consideration in this section. A project in final stages of production looking for gap finance, or a completed project in need of placement at major film festivals and distribution partners, will be presented at FB 2011.

FB conducts the **Work-In-Progress Lab**; where distinguished international film experts review your rough-cut feature film/documentary over intensive sessions to enable you to reach a significant breakthrough in the editing process and position your project in the international film market. Apply before submissions close on **October 15, 2011**.
